DIRECTORS' REVIEW

Your directors take pleasure to present before you the un-audited financial statements of the company for the 1st Quarter Ended on September 30, 2020.

OPERATING RESULTS:

The Sales revenue for the period under review has been decreased from Rs. 61.881 million to Rs. 60.915 million as compared to the corresponding period and the decrease in sales for the quarter is 1.56%. Management is focused to run both spinning & weaving section on self-production along with conversion basis so that to meet operational and fixed cost. The financial results could have been even better, if the external environmental factors allowing the textile sector to perform better which remain unfavorable. The company has incurred gross loss of Rs (2.321) million as compared to the corresponding period gross profit of Rs. 0.568 million and the overall results depicts net loss after taxation for the 1st quarter at Rs. 4.089 million (September 30, 2019 –loss after taxation of Rs. 3.807 million) inclusive of depreciation charged as expenditure of Rs. 7.239 million. Due to the prevailing tough conditions, the management has been able to avoid cash loss.

The company is still facing liquidity problems due to the litigation with the bank and therefore, the company's working capital financial facilities from the bank stand expired. Due to the paucity of the desired working capital, the company operational activities are reliant on the company's own limited financial resources. However, the management is negotiating with Bank for settlement of bank loan which is expected to be achieved in foreseeable future which would be helpful in regularization of the financial limits.

FUTURE PROSPECTS:

The business outlook is very challenging due to persistent political and economic conditions prevailing in the country and the textile sector particular with old machine setup persistently facing difficulty in revival of the companies. The management of the company is making best efforts to continue operate the unit without any cash losses and the decision to work on conversion basis is in line with that policy that would be helpful to avoid cash losses. The management expects that settlement proposal shall be accepted by the bank and the company would be able to revive the financial facilities by restructuring of facilities.

The management has chalked out plan for increase in production which will make the unit more stable and viable. The management has planned for regular investment in plant and machinery, which is very difficult in the current circumstances but will be possible after the restructuring and rescheduling of the existing financial liabilities and will yield benefit for the project.

NOTE OF THANKS:

The board puts on record its gratitude to its valued shareholders, customers and raw material suppliers whose co-operation, constant support and patronage have helped your company to achieve the desired results.

The board also expresses its thanks for the valuable teamwork, loyalty and laudable efforts rendered by the executives, staff members and workers of your company and wish to place on record its appreciation for the same.

For and on behalf of the Board of Directors

CHIEF EXECUTIVE
